PROFESSIONAL QUALITY, IN-WALL,
SURROUND EFFECTS LOUDSPEAKER

In-wall Special Effects Loudspeaker

IW770FX

Stock Number

FG01328

Features

- Forward-firing, 7" interlaced carbon-fiber woofer with butyl rubber surround provides dynamic theater quality sound at sustained high-power output levels
- Forward-firing 1" fluid-cooled Teteron® dome tweeter delivers ultra-wide dispersion and silky-smooth high-frequency response
- Dual side-firing 4" carbon-fiber midrange drivers with neodymium magnets and dual 1" Teteron® dome tweeters provide diffuse sound fields for optimum surround effects
- 12V controlled Dipole/Bipole relay accommodates automated DVD-Audio or Dolby® surround sound effects
- Front mounted Dipole/Bipole switch and effects level control enables fine-tuning after installation
- Cross-braced ported cabinet with integrated frame design fits standard 2X4 construction and is easily retrofitted
- Gold plated input terminals accept 12 gauge wire and ensure positive connections
- Epoxy-coated MicroPerf™ grille provides an elegant yet unobtrusive appearance

Specifications

- Frequency Response: 70Hz to 20kHz +/-3dB
- Sensitivity: 90dB (2.83V@1 meter)
- Hole Cutout Dimensions: 24 1/4 inches X 10 1/2 inches
- Depth from Front of wall: 3 7/8 inches
- Recommended Amplifier Power: 15 to 125 Watts
- Impedance: 6 ohm nominal; 3.2 ohm minimum

Warranty: Five-year limited

Shipping Weight: 42.68 lbs, 19.4 kg
